

Specifications

Tarrison Products EXTENSIVE product line, commitment to INVENTORY and vast selection of finishes and sizes will meet your storage needs each and every time.

Tarrison storage and handling equipment is uniquely designed to fit every storage application. The open wire truss-reinforced shelves permit light to penetrate, allow free air circulation and give greater visibility of merchandise. Moisture and dust accumulation is reduced and maximum effectiveness of sprinkler system is ensured. Assembly is simple. The heavy-duty tubular posts with rolled circular grooves at 1-inch increments are clearly numbered to make assembly exceptionally easy, fast and accurate. No tools are required for assembly or adjustment. The built-in tapered shelf collar mates perfectly with the inter-locking clip. The mating rib on the Tarrison clip ensures a positive shelf position on the grooved post. A perfect fit every time!

Our shelving systems come in a variety of finishes. Choose the one that is best for your application and budget.

Stainless Steel

Type 304 series stainless steel. The definitive choice for any and every application.

PolySeal

Clear epoxy powder coat electrostatically applied over bright zinc-chromate electroplating. The smart choice for any dry storage and high humidity application, such as refrigeration. Tarrison PolySeal finish gives you added protection for longer durability and corrosion resistance at the lowest cost.

Limited 15-year corrosion warranty - terms and conditions apply.

Chrome

Bright nickel-chrome electro-plating. Best choice for dry storage and display applications. A brilliant finish for the high-tech look. Use where appearance is a major factor.

Value Epoxy

Value epoxy is electrostatically applied. Three-year warranty from date of manufacture. Standard in black, available in any colour.

Tarrison Shelving has one of the highest load ratings on the market today. You asked for strong, heavy-duty shelving at an affordable price and Tarrison answered.

Static Load Capacity Guideline

Up to 48" wide: 1000 lbs. per shelf
Over 48" wide: 800 lbs. per shelf
Dunnage Shelving: 1,500 lbs. per shelf

Static load capacity is based on even distribution and can be affected by other conditions based on application – the above ratings are a guideline.

Warranty

Tarrison Products Ltd. warrants that all Tarrison products will be free from defects in material and manufacture at time of shipment. We guarantee to repair or replace any item, FOB Tarrison, that is found to be defective for up to one (1) year from date of shipment provided that it has been properly used.

Tarrison Products Ltd. will repair or replace any product that does not perform as represented herein with normal indoor usage. A Tarrison Representative will examine the installation and determine repair or return disposition. No returns may be made without prior written authorization. All returns must be made **freight prepaid** to Tarrison Products Ltd.

All Warranties are made for the benefit of the original owner under normal usage - original proof of purchase must be provided with warranty claim. There are no other warranties expressed or implied beyond those stated herein. Tarrison Products' liability is limited to the replacement of defective merchandise, FOB Tarrison, and Tarrison will not be responsible for any and all ancillary expenses that may arise. No employee or agent of Tarrison Products Ltd. has any authority to make any representation or warranty, which exceeds those stated above.

Effective January 2008. Supersedes any previous warranty statements, call for complete details.

Tarrison Products is not responsible for any errors or omissions. We reserve the right to change prices based on fluctuations in raw materials. Specifications subject to change without notice. 01/11
