**The industry's first
all-convertible “*shift on the fly*”
refrigeration system.**

CTRF2-21

Formerly J2SRF-20B

Solid Door Single Section 20 Cubic Foot Refrigerator/Freezer

Features

"Shift on the fly" technology allows *Convert-a-Temp* freezer sections to be fully convertible to refrigerator temperatures and refrigerator sections temporarily convertible to freezer temperatures. Simply adjust the temperature on the exterior PC board and your *Convert-a-Temp* unit becomes the most unique, versatile and "must-have" piece of equipment in your kitchen.

Convert-a-Temp refrigeration systems can be set exactly to a wide range of desired temperatures. Temperature setting is easy, fast and accurate.

Stainless steel interior and exterior for greater durability, construction and appearance.

Indirect Fin-Coil Cooling. *Convert-a-Temp* fin coil evaporators use the power of gravity to indirectly circulate in the box, creating low velocity airflow and more even temperatures.

Convenient and energy-efficient half-door design. Opening only half a door will release only half of the cold air. The doors also have recessed handles and come with adjustable tension springs for hands-free closing.

"Auto-D" Evaporator Defrost. *Convert-a-Temp* units offer an automatic evaporator defrost system. If the computerized thermometer and temperature control senses that the evaporator temperature is low enough for ice to accumulate, the unit will automatically cycle into defrost.

Heavy-duty 5" casters standard for easy mobility and installation. *Convert-a-Temp* units are 76.2" high on casters to wheel through most standard doors.

Dimensions	W"	D"	H"
Exterior:	29.1	32.5	71.2
Height with casters:			76.2
Interior refrigerator:	24.0	26.7	28.0
Interior freezer:	24.0	26.7	28.0
Pallet size:	33.0	36.0	4.5

General Information

Freezer

Cubic Feet: 7
2 adjustable epoxy coated steel wire shelves

Refrigerator

Cubic Feet: 14
2 adjustable epoxy coated steel wire shelves

Shelf Size: 24.5" X 23.5"

Exterior: Stainless

Interior: Stainless

Unit Weight: 230 lbs.

Gross Weight: 270 lbs.

Cord length: 73" Nema 5/15P

Volts: 115

Amps: 7.6 (run) 12.2 (start)

Electric condensate evaporator

Insulation: 2.5" thick, high-density polyurethane, foamed in place

Interior Lights

Compressor Information

Refrigerant: R404A

Number of compressors: 1

Refrigerant Capacity: Medium/Low Temp

Use: Refrigerator/Freezer

H.P.: 1/2

Warranty: 1-year parts and labour and 5-year compressor.
